To whom it may concern:

I urge you to please consider Uber as an honorable and appropriate means of transportation. It is a valuable tool to the state of South Carolina and brings an updated honesty to transportation. I feel as though Uber is a safe option for travel because there is better and more effective communication between driver and passenger(s). Please reconsider the cease and desist. Thank you for your time.

Most Sincerely,
Caroline Wingate

Uber is the only safe way for anyone in Greenville SC to get home from downtown since its prohibited for cans to circle the area and when you call you never get a person at the cab company thus many people end up drunk driving. We have taken uber when visiting charleston and were picked up in anything from a Prius to a Mercedes by the nicest people who were trying to supplement income. This is the best thing to help people get to destinations whether visiting and not having a vehicle or to much to drink. Instant online capability to see if they're available and text them for an instant pick up is genius. Please keep uber! Sincerely katie hall

There is no reason to outlaw Uber. Every state in the union has allowed Uber. If taxi service was sufficient in SC, Uber would not have the support and traction that it does. Give the voters what they want, capture the tax revenue, and join the 21st century.

The people demand Uber!
